Summary

I am a passionate and aspiring software engineer with a solid foundation in C++ ,java and python and a fundamental understanding of web development. I am actively practicing data structures and algorithms (DSA) problems in Java, refining my problem-solving skills and preparing for technical challenges. I am eager to learn and grow, with future plans to pursue full-stack web development. I seek opportunities to collaborate with experienced professionals and contribute to innovative projects, aiming to make a meaningful impact in the tech industry.

Experience

Fresher
